

# Construction

Kirkland Albrecht & Fredrickson is recognized as one of the premier CPA firms serving the construction industry by the sureties and banking community. With more than 30 years of experience, we understand the challenges that contractors face from general business operations to securing a bonding program and outside financing needed to operate the business. We work directly with you to deliver trusted financial and business solutions so that your company can grow and prosper.

How can I increase my bonding program?

The knowledge KAF has gained in serving our construction clients allows us to address technical issues quickly and effectively. Our tax department has extensive knowledge of all available tax methods for the construction industry which will allow you to defer income taxes and preserve cash flow. We serve as business advisors working with you to ensure that you have the business flexibility and credit available to succeed as a company.

## Comprehensive Services for the Construction Industry:

- + Bond Analysis and Planning
- + Burden Rate Analysis
- + Business Advisory Services
- + Estate and Succession Planning

- + Mergers and Acquisitions

KAF's accountants and consultants have in depth experience serving the construction industry. We understand the intricacies of the industry and the interaction between general contractors, specialty trade subcontractors, building material suppliers, architects and engineering firms, as well as banks and other lending institutions. Our customized financial analysis provides you with feedback on how your financial ratios measure up to industry standards and best practices. We can evaluate and make recommendations related to your existing system of internal controls, organization chart, technology, billing rates and core competencies. As a result, the KAF team can provide a tailored financial and business solution to meet your specific needs.

Our specialized solutions will give you the tools to have the balance sheet, cash flow and lines of credit which will enable you to endure potential long-term success. More importantly we want to assist you in your desire to maximize profitability.
